

TOTAL ECLIPSE OF THE MOON

The residents of this city in general and amateur astronomers in particular were treated last evening to the beautiful natural phenomena of a total eclipse of the moon, although the totality of the eclipse was not visible because of the earliness of the hour at which the eclipse occurred.

Every condition was perfect, however, for observations and the great silvery orb shrouded in the dark shadow of Mother Earth was a beautiful sight. The sky was cloudless, the eclipse being visible from the time the moon arose until the great satellite had passed beyond the earth's shadow.

According to the astronomers, the moon entered the earth's shadow at 3:44 p. m., mountain time. A few minutes before six o'clock the copper-colored globe made its appearance above the Wasatch mountains and as the eclipse had been total at 5:21, the moon had already started to pass out of the shadow.

At six o'clock there was a silvery crescent on the lower edge of the orb and this gradually widened until at two minutes of seven o'clock the moon had passed entirely out of the shadow. Many doubtless noticed that the moon appeared smaller when almost totally darkened than when it appears normally or after passing out of the shadow.

This is due to the effect of irradiation, the atmospheric layer about the earth bending a portion of the sun's rays out of their straight course is also due to this atmospheric condition. An eclipse of the moon is one of those astronomical phenomena which show better advantage to the naked eye or in a opera glass than in a large telescope. Had the air about the earth been filled with clouds the sun's rays would have been stopped and the eclipse would not have taken on a darker shade but, according to the statements of astronomers, seldom happens.

Only One U. S. Inspected Establishment in Ogden

Notwithstanding statements to the contrary by certain proprietors of local meat markets, there is no place in Ogden—neither meat market nor slaughter house nor abattoir—where government inspection is exercised, but at the establishment of the Ogden Packing and Provision Co. Here the government has three officials stationed to protect the public against diseased and unclean meats. All of the meats from this establishment carry the little, blue government inspection stamp and no meats are government inspected unless this stamp appears on them. Look for the stamp on the carcasses as you enter your meat market. You can easily tell, if your market does not handle U. S. inspected meats go to some market where they do. It is always safer to trade where U. S. inspected meats exclusively are handled.

JURY FINDS JOE SMITH GUILTY

Joseph Smith, on trial yesterday before Judge Howell in the district court on the charge of grand larceny was found guilty by a jury last evening but no sentence was passed until court convenes today.

It was alleged in the information that on the night of June last Smith was discovered in the act of robbing Thomas O'Brien of \$10. The robbery occurred near Lester Park on Twentieth street and the victim was so drunk that he was not aware of what was taking place.

The men who recovered Smith in the act were Hyrum Land and Albert Folger, both of whom testified at the trial yesterday. They claimed

The Girl Who Lives Alone

whether she attends college or goes to business, needs the Perfection Oil Heater. It will heat a cold, cheerless boarding house or dormitory room and make it livable. It is always a ready help in the many things women do for themselves in their rooms. With the damper top opened it will heat water for tea or cocoa; it will dry the small articles that a woman prefers to wash herself in her own room. It will quickly heat an iron or curling tongs; quickly dry wet shoes or skirts—an ever ready help for the woman who lives alone, dependent on her own resources. The

Perfection Oil Heater is invaluable in its capacity of quickly giving heat. It will burn nine hours with one filling. It is safe, smokeless and odorless; has a cool handle and a damper top. An indicator shows the amount of oil in the font. The filler-cap is put in like a cork in a bottle and is attached to the font by a chain. It has an automatic-looking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

Ogden's Only China Store

Richardson-Hunt Co.

"THE CROCKERY PEOPLE"

25 Open Stock Patterns in Dinner Ware, prices from \$16.85 to \$100

More Stock Than All Others Combined

ENDORSED CHECK AND GOT IN JAIL

On advice of the Salt Lake police Chris Christensen, a resident of that city, was arrested here last evening on the charge of having passed a worthless check for the sum of \$25. It was afterwards discovered that the young man had not maliciously passed the forged paper and he was released from jail upon his father depositing the amount of the check.

According to the police Christensen accepted the check from a man named Brown, believing the paper to be genuine. Christensen returned the check and cashed it but when the Salt Lake firm on whom the check was made received the paper they pronounced it a forgery. The name of the firm was not known to the local police.

Christensen came to this city yesterday afternoon and upon receiving the instructions from the Salt Lake police he was located on Twentieth street and arrested by Officer Crompton. The young man is employed as a clerk. He returned to Salt Lake with his father last night.

"EQUAL SUFFRAGE" DANCE A SUCCESS

The "Equal Suffrage" dance given by the Ogden Ladies' Academy last evening was one of the successful social events of the season. There were about two hundred couple present and all thoroughly enjoyed the hospitality of the academy.

The invitation list was restricted to members of the lodge, one friend and their ladies, and the result was a congenial crowd which spent a most delightful evening in dancing. There were splendid music and light refreshments were served during the evening.

The committee in charge of the affair was composed of the following members of the lodge: C. O. DeWolf, Dr. W. J. Brown, W. J. Dallinger, W. D. W. Zeller and M. L. Higley. Exalted Ruler C. A. Boyd and other members of the order assisted in making the event an unqualified success.

POLICEMAN GOOD MATCHMAKER

SALT LAKE, Nov. 16.—It is very seldom that cupid comes within the precincts of the sordid and demoralizing influence that surround city jails, with its crooks and discarded derelicts.

Yesterday Patrolman George Phillips prevented George Rowley, father of pretty Jeanette Rowley, from killing the girl's sweetheart, Charles Howarth. He arrested the late father of the girl and brought him to jail today he took him from the prison

Baby's Voice

Friend. This great remedy prepares the expectant mother's system for the coming event, and it's use makes her comfortable during all the term. Mother's Friend assists nature in gradually expanding all tissues, muscles and tendons, it strengthens the ligaments, keeps the breasts in good condition, and brings the woman to the crisis in healthful physical condition. The regular use of Mother's Friend lessens the pain when baby comes, and assures a quick and natural recovery for the mother. For sale at drug stores. Write for free book for expectant mothers.

BRADFIELD REGULATOR CO., Atlanta, Ga.

CHIMNEY FIRE AT ROOMING HOUSE

The fire department was called to the St. Lawrence hotel, corner Twentieth street and Washington avenue, about 5:30 o'clock last evening. The starting of a fire in the furnace caused the chimney to ignite and the smoke, escaping through ventilators into the rooms, caused the impression that the house was on fire.

When the firemen arrived the fire had been smothered. There was no damage to the property.

The fire department was called to the St. Lawrence hotel, corner Twentieth street and Washington avenue, about 5:30 o'clock last evening. The starting of a fire in the furnace caused the chimney to ignite and the smoke, escaping through ventilators into the rooms, caused the impression that the house was on fire.

THREE SHEETS OF PAPER STOP TRIAL

JACKSON, Tenn., Nov. 16.—Federal court machinery was clogged today by the non arrival of three sheets of paper, enroute from Washington since Monday. With the arrival, in all probability tomorrow morning, the case of the prosecution will be closed and the climax will come in the suit of the United States against the Standard Oil company of Indiana, charged with received freight rate concessions.

These papers, the attorney for the government declare, have to do with rates higher than 15 cents per hundred weight which the defendant company is alleged to have paid on shipments from Whiting, Indiana, to Grand Junction, Tenn., "or beyond."

They are to be applied to the government contends, from Evansville to Grand Junction, a much shorter haul than from Whiting.

A vigorous effort is to be made to secure an instructed verdict for the defense. If this fails, evidence in contravention to the prosecution's contentions will be tendered.

secured his services. Hummel signed with Salt Lake on Wednesday. Mr. Thiel said that although he had no personal knowledge of Hummel's work, the fact that Denver was seeking him was recommendation enough.

"Dad" Glinin, who recommended Hummel to Thiel, declares that before July 1 the big leagues will have drafted the fast Salt Lake pitcher.

CHL Blankenship, manager of the Salt Lake club, and Mr. Thiel have their eyes on several other good players, but have not yet completed negotiations for them. Blankenship, who is acknowledged to be one of the best catchers and hitters in the country, will be behind the bat during every game for Salt Lake.

Four clubs comprising the circuit of the new league have already completed arrangements for admission to the league and franchises have been granted. L. F. Thiel holds the Salt Lake franchise. John J. McGee, the old-time professional baseball manager, is already in active charge of the Butte club. The Great Falls franchise has been let to William Neal of Louisville. Neal is an old-time baseball man who for years has been the scout for the Pittsburgh Pirates. Jack Cody, well known in sporting circles throughout the west, has secured the Boise franchise.

PIOCHE MERGER IS AGREED UPON

Consolidation of Nevada Camp's Great Properties Revived by Big Interests.

Information that came from a private source is to the effect that terms for the consolidation of a number of Pioche properties were agreed on yesterday in New York. Nothing more definite than this has been received up to the present time, and the details are unknown to any of the local interests in that camp. A number of properties will doubtless be included in this proposed merger, as it is known that overtures have been made to the Prince Consolidated, Ohio Kentucky, Utah Nevada, Pioche Centennial and several other companies operating in that region. It is understood that all have not agreed to the terms, and that Pioche Centennial is one of the companies that has held out for a larger cash consideration.

Just what the terms will be has not been made clear to a number of the local interests in these companies. It is claimed that some of the best properties have offered to come in on a proposition to create a large holding company, which should be heavily financed to do extensive development work.

One of the pioneers of that camp said recently that he did not care for any money consideration at this time, provided the new interests would give ample assurance of their ability and willingness to supply the necessary money in opening up a portion of the ore in that camp.

The interests that are backing this merger are said to be the same which took over the controlling interest in Nevada Utah. They are spending a great deal of money in development work on this property, having put three shifts to work opening up the mine to a greater depth. The objective point is to develop the great black ledge, which was so productive during the days when Raymond Ely was the big producer of the southern country.

Some idea of what rich values were produced from this deposit is shown by the returns on a recent shipment made from the old dump. After extracting and sorting the richer ores, and working over the dump at various times since the Raymond Ely was closed down, some loaders took a portion of the dump. They have just made a shipment of zinc ore, which carried a few dollars in silver and gold values, and from the first car there was realized better than \$19 net to the ton. The zinc product is quite high, the returns showing values of an average of 44 per cent zinc.

With facilities for handling the ore near the mines a greater saving could be made. It is understood that the new interests have agreed to provide all the money needed for installing reduction work, and possibly a smelting plant in the vicinity as a means for developing the properties that are consolidated.

Star Salt Lake Twirler on Pitching Staff of Local League Team.

George T. Hummel, Salt Lake's premier pitcher, is the first player to sign with the new Salt Lake club of the Union association. The Denver team of the Western League was atter Hummel, but L. F. Thiel owner of the Salt Lake franchise, was able to make Hummel the better offer and
